*Learning booklets cover details about these qualities and skills.*

## **IntelliGem Quotient**

Students will go through multiple stages during the TCS iON IntelliGem 2024-25 contest. Their understanding, knowledge, and performance across the 21<sup>st</sup> Century topics mentioned earlier, will be measured across these stages.

IntelliGem Quotient, for every student, will be a measure of their performance in the topic(s) at the personal-level, along with an indication of their standing at the grade-level.

## **TCS iON IntelliGem 2024-25 will be conducted in three stages**

### Stage 1: Qualifying Round

Aimed at evaluating a student's *understanding* and *knowledge* of their topic(s), the Qualifying Round comprises two online assessments. Students will have to mandatorily take both the assessments as each assessment carries a weightage. Based on their performance in these assessments, students will move on to the next stage. In the Qualifying Round, students will be evaluated at their grade-topic level.

### Stage 2: Pre-Finals

After the Qualifying Round, top students from every grade topic will be selected for the Pre-Finals. In this stage, a panel of experts will evaluate a student's *skill demonstration/performance* across their topic(s) in an audio/visual, activity-based interview. In Pre-Finals, students will be evaluated at their grade-topic level.

### Stage 3: Grand Finale

Based on their performance in the Pre-Finals, the top two students for every grade topic will be selected to participate in the Grand Finale. In this stage, students will be evaluated by a Jury in a face-to-face, activity-based contest. For every topic, the top performer will be chosen as the Winner of TCS iON IntelliGem 2024-25 across two categories – Junior (grades 5 and 6) and Senior (grades 7, 8 and 9).

*Note: Registered students will receive communication regarding these stages during the contest. This document is an overview of the evaluation criteria in terms of qualities & skills assessed for each topic and what aspect of these are evaluated at various stages in the contest.*
